

Eco-Library Initiative: Bridging Education and Sustainability for Rural Community Empowerment

Presented by – Monira Khanam Tonni

Introduction

- Education & Community Development Challenges faced by rural communities:

Inadequate infrastructure Limited access to educational resources
Lack of awareness about sustainability

- Solution: Eco-Library Initiative

Project Objectives

- 1. Construct an eco-library using recycled materials.
- 2. Provide access to books and digital learning tools.
- 3. Conduct workshops on literacy and environmental awareness.
- 4. Increase digital and environmental literacy by 60% within one year.

Background

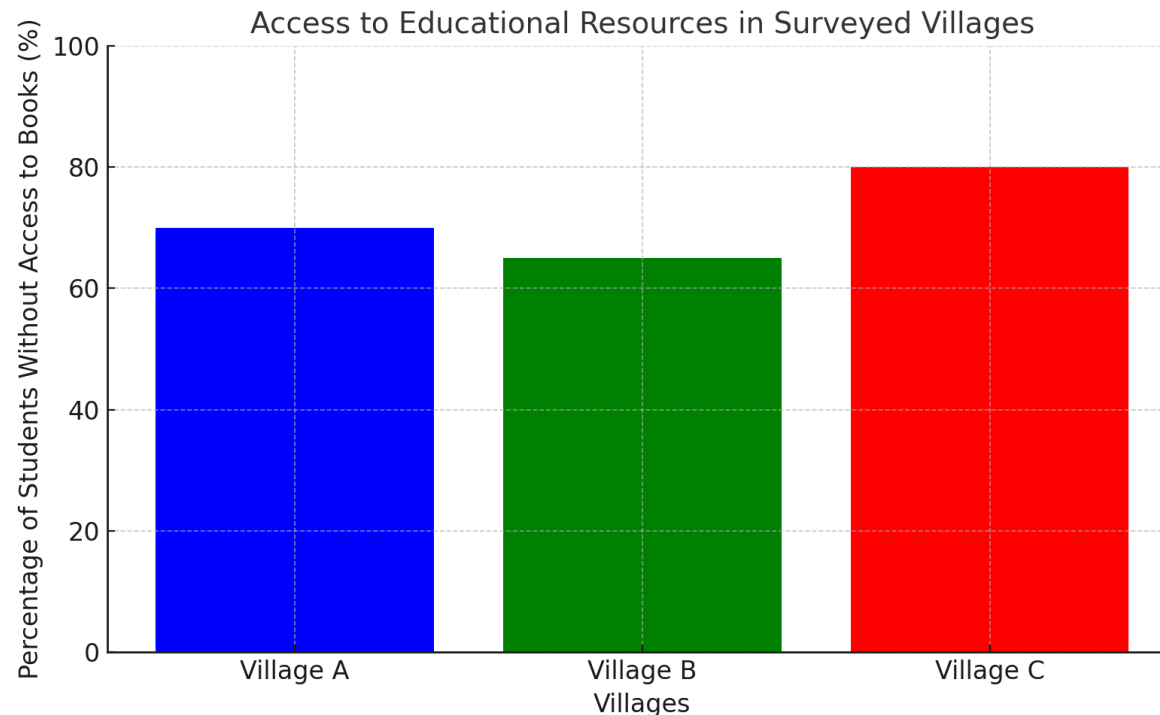

Challenges in Rural Areas

Lack of infrastructure and resources

Divide between urban and rural areas

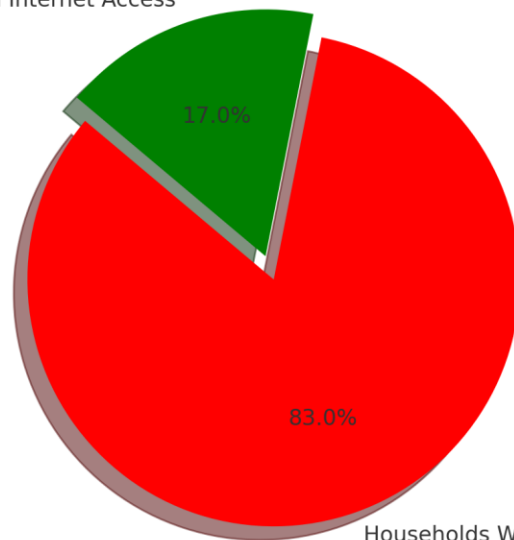

Environmental :Deforestation and waste management problems
Limited awareness of sustainable practices

- Data RepresentationSurvey Results:72% of students lack access to books83% of households have no internet62% of residents are interested in workshop

Internet Access in Rural Households

Households With Internet Access

Households Without Internet Access

- Project impact

Indicator	Baseline 2023	Target 2024	Project increase
Number of students with access to books	100	500	400%
Households with basic digital literacy	10%	50%	40%
Awareness of sustainability practice	20%	60%	40%

Budget Allocation

Category	Amount (USD)	Percentage of Total Budget
Library Construction	10,000	50%
Resource Acquisition (Books & Devices)	5,000	25%
Solar Panel Installation	3,000	15%
Community Workshops	2,000	10%
Total	20,000	100%

- Eco-Library Concept Design

Recycled Materials: Plastics, wood, and metal

Renewable Energy: Solar panels and battery storage

Green Features

- Natural ventilation
- Rainwater Harvesting
- SystemGreen Roof and Community Garden

- **Expected Outcomes**

1. Improved Access to Educational Resources
2. Enhanced Digital and Environmental Literacy
3. Increased Community Engagement in Sustainable Practices
4. A Replicable Model for Other Regions

- Together, we can bridge the educational divide and foster environmental stewardship.

Thank you
